

Scenario No: 1 | Infrastructure Reconnaissance

1. Information Gathering :

* **Domain Name: WHIZMINDER.COM**

Here I use, “whois Whizminder.com” command for Identify the original domain.

```
root@kali: /home/kali
Session Actions Edit View Help
root@kali: /home/kali
$ whois whizminder.com
Domain Name: WHIZMINDER.COM
Registry Domain ID: 2956295735_DOMAIN_COM-VRSN
Registrar WHOIS Server:

DNSSEC: unsigned
URL of the ICANN Whois Inaccuracy Complaint Form: https://www.icann.org/wicf/
>>> Last update of whois database: 2026-05-11T16:34:59Z <<<

For more information on Whois status codes, please visit https://icann.org/epp

NOTICE: The expiration date displayed in this record is the date the
registrar's sponsorship of the domain name registration in the registry is
currently set to expire. This date does not necessarily reflect the expiration
date of the domain name registrant's agreement with the sponsoring
registrar. Users may consult the sponsoring registrar's Whois database to
view the registrar's reported date of expiration for this registration.

TERMS OF USE: You are not authorized to access or query our Whois
database through the use of electronic processes that are high-volume and
automated except as reasonably necessary to register domain names or
modify existing registrations; the Data in VeriSign Global Registry
Services' ("VeriSign") Whois database is provided by VeriSign for
information purposes only, and to assist persons in obtaining information
about or related to a domain name registration record. VeriSign does not
guarantee its accuracy. By submitting a Whois query, you agree to abide
by the following terms of use: You agree that you may use this Data only
for lawful purposes and that under no circumstances will you use this Data
to: (1) allow, enable, or otherwise support the transmission of mass
unsolicited, commercial advertising or solicitations via e-mail, telephone,
or facsimile; or (2) enable high volume, automated, electronic processes
that apply to VeriSign (or its computer systems). The compilation,
repackaging, dissemination or other use of this Data is expressly
prohibited without the prior written consent of VeriSign. You agree not to
use electronic processes that are automated and high-volume to access or
query the Whois database except as reasonably necessary to register
domain names or modify existing registrations. VeriSign reserves the right
```

* **Subdomains ;**

cdn.whizminder.com

mail.whizminder.com

www.whizminder.com

Here I use , “subfinder -d whizminder.com” for extract the subdomain.

2. Employee Information Gathering

Tools Used

- Google Dorking
- theHarvester
- WHOIS
- NSLookup

Findings

- Attempted to identify publicly available employee information using LinkedIn OSINT techniques.
- No significant employee profiles were publicly indexed by Google.
- Additional reconnaissance tools were utilized to gather domain-related intelligence.

NOTICE: The expiration date displayed in this record is the date the
registrant's sponsorship of the domain name registration in the registry is
currently set to expire. This date does not necessarily reflect the expiration
date of the domain name registrant's agreement with the sponsoring
registrant. Users may consult the sponsoring registrant's whois database to
view the registrant's reported date of expiration for this registration.

TERMS OF USE: You are not authorized to access or query our Whois
database through the use of electronic processes that are high-volume and
automated except as reasonably necessary to register domain names or
modify existing registrations; the Data in VeriSign Global Registry
Services' ("VeriSign") Whois database is provided by VeriSign for
information purposes only, and to assist persons in obtaining information
about or related to a domain name registration record. VeriSign does not
guarantee its accuracy. By submitting a Whois query, you agree to abide
by the following terms of use: You agree that you may use this Data only
for lawful purposes and that under no circumstances will you use this Data
to: (1) allow, enable, or otherwise support the transmission of mass
unsolicited, commercial advertising or solicitations via e-mail, telephone,
or facsimile; or (2) enable high volume, automated, electronic processes
that apply to VeriSign (or its computer systems). The compilation,
repackaging, dissemination or other use of this Data is expressly
prohibited without the prior written consent of VeriSign. You agree not to
use electronic processes that are automated and high-volume to access or
query the Whois database except as reasonably necessary to register
domain names or modify existing registrations. VeriSign reserves the right
to restrict your access to the Whois database in its sole discretion to ensure
operational stability. VeriSign may restrict or terminate your access to the
Whois database for failure to abide by these terms of use. VeriSign
reserves the right to modify these terms at any time.

The Registry database contains ONLY .COM, .NET, .EDU domains and
Registrars.

Scenario No: 4 | Professional Reporting

Professional VAPT Report

Organization Name

Whizmind

Assessment Scope

- Infrastructure Reconnaissance
- OSINT & Employee Information Gathering
- Service Enumeration
- Vulnerability Scanning

Scenario No: 1 | Infrastructure Reconnaissance

Objective

To gather publicly available information about the target organization without prior internal knowledge.

Activities Performed

1. Domain Identification
2. Subdomain Enumeration
3. IP Address Identification
4. Employee Information Gathering

Non-Technical Executive Summary (Scenario 1)

The assessment identified publicly accessible information related to the organization's infrastructure and employees. Attackers could potentially use this information to perform targeted phishing or social engineering attacks against employees.

The overall risk level is **Medium**, because exposed public information increases the organization's external attack surface and may assist attackers during the early stages of an intrusion attempt.

Scenario No: 2 | Service Enumeration & Vulnerability Scanning

Objective

To identify active services, open ports, operating system details, and vulnerabilities on the target system within the lab environment.

Activities Performed

1. Service Enumeration
2. Vulnerability Scanning

Non-Technical Executive Summary (Scenario 2)

The technical scan identified several exposed network services and potential vulnerabilities on the target system. Some services appeared to be outdated or improperly secured, which could allow attackers to gain unauthorized access if exploited.

The overall risk level is **High**, because vulnerable or exposed services can provide direct entry points into the organization's systems and infrastructure.
